John Crum-Manager
Coastal Service and Supply

As manager for the One Barbados Condominiums, I have depended on Coastal Service and Supply for all our generator, pump and motor needs. Coastal has provided a maintenance service contract to our building for over 9 years. I especially appreciate the prompt service and education you have provided on our system. Any call to your company for service, concerns or questions has either been answered immediately by very knowledgeable staff fully familiar with our building and ready to take care of our needs or call and email messages have been returned in a very timely manner. All service personnel have provided prompt, thorough, informative and courteous service.

Thank you for your continued service to One Barbados Condominiums,
